ECOLOGY, HEALTH AND SAFETY

REGULATION (EC) NO 1907/2006 - REACH

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

APPLICATION INSTRUCTIONS

APPLICATION METHOD / TOOLS

Hole cleaning is an important part of all installations and has an essential effect on the performance of the anchorages. A combination of correct diameter brush and compressed air (supplied by compressor) or hand pump must be used to clean holes.

The drill hole must be thoroughly cleaned with the special original BANTEK® brush.

The diameter of the brush must be larger than the diameter of the drill hole.

Insert the brush to the very end of the drill hole. Pull the brush out. Repeat this procedure.

Do not use other cleaning brushes than original BANTEK® brushes.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of BANTEK products, are given in good faith based on 's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with BANTEK's recommendations. In practice, the differences in materials, sub-strates and actual site conditions are such that no war-ranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recom-mendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. BANTEK re-serves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
